

# KAM™

## ACCOUNT MANAGEMENT KIOSK

### SELF-SERVE

**UNITED TOTE**  
TRUSTED. RELIABLE. SECURE.

### KEY FEATURES

- Driver's license scanner for easy data entry and quick account creation
- Voucher creation and cashing
- Contents secured against tampering; ATM-class steel cabinet for maximum security
- Cash funding and withdrawal/cash recycling technology; same footprint as a conventional ATM
- Seamless integration with all United Tote platforms, and FastBet Mobile™ app
- On-screen account transaction history
- Multi-note bill insertion
- Cashes winning tickets

United Tote's KAM™ allows patrons to create an account and fund it with cash, vouchers or winning tickets. All KAM™ components are enclosed in an ATM-class steel cabinet, securing the contents against tampering. A key component of the KAM™ is the bill recycler, which allows both funding the account with cash, and cash withdrawals from the customer's account. The recycler also helps minimize maintenance, and security assisted visits. The KAM™ is powered by United Tote's state-of-the-art ToteLink API.
