

G SERIES WAGERING TERMINAL

TELLER AND SELF-SERVE

 **UNITED TOTE**
TRUSTED. RELIABLE. SECURE.

KEY FEATURES

- Dual purpose flip terminal
- Simple transition between teller and self-service mode with pivot-and-lock touchscreen
- High-volume and high speed printer with speed of 250 mm/sec
- Fanless for lower maintenance and quiet operation
- Modern, user intuitive design to increase wagering throughput
- Smart ergonomics and wide touchscreen adjustment range (45°) for comfortable operation
- 15° tilt adjustment for standing tellers
- Vertical stacking of wagering tickets clearly visible by tellers
- External Bill Validator option (G-BAM)
- Proprietary ticket reader designed to eliminate jams

Designed from the ground up with decades of experience maintaining and operating wagering devices at its core, the G Series terminal, with its sleek and compact design and touchscreen interface is the most user-friendly terminal option for tellers and patrons alike. Easily flippable between teller and voucher self-service wagering, and built with United Tote's sleek and proprietary EnterBet® interface, the G Series is designed to increase speed and productivity to heighten the wagering experience.

ABOUT UNITED TOTE

Racetracks in the United States and around the world rely on United Tote totalisator systems for pari-mutuel wagering products and services. Hosting the biggest days in racing including: **The Kentucky Derby, The Bluegrass Stakes, The Breeders' Cup, and The Arkansas Derby.** United Tote's excellent customer service and system reliability have made UT the totalisator of choice in the racing industry.
